- *Online elective Classes: Math, Transformers, AC/DC Theory.*

REGULAR

SELcat
APPRENTICESHIP
TRAINING

CLASSES

We offer 12 pre-scheduled online classes per year.

Apprentices must attend a minimum of 8 classes.

Classes are currently offered online. Also offer elective classes online they can take. Classes are mostly held on weekends but is subject to change.

ROTATIONS

- *Rotate apprentices based on their total hot time.**
- *When we receive calls for hot time, we verify the AP has not already been rotated in house by the contractor.**
- *If not, we will send a new AP to that job and rotate the AP needing hot time to new job.**

TRAINING

Hot Time!

Each AP must have 2000 hours in Distribution Live Line Maintenance.

SELCAT defines hot work as: If you are within the Minimum Approach Distance on Energized Primary Work and it requires gloves or hot sticks.

DIRECT ENTRY

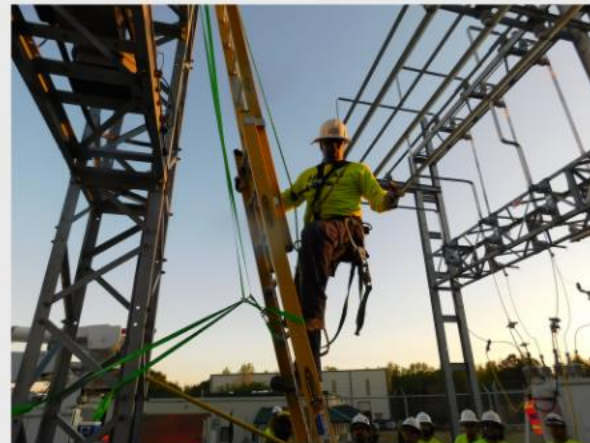

3500 verifiable work hours in the electrical construction industry.

If they attended a SELCAT approved Line College; within 3 years, goes to the PENDING list for job placement. Over 3 years; must be evaluated by SELCAT.

If they have not attended an approved Line College: must be evaluated by SELCAT and pass the evaluation.

Substation Program

Underground Program

"To train the next generation of qualified electrical workers aka journeyman linemen."

"To ensure each apprentice has the opportunity to receive training in a safe learning environment."

- 1) Energized Lines**
- 2) Cutting edge training technology**
- 3) Online test delivery**
