

NECA Asks for 2025

Pass Key Tax Legislation to Support Small Businesses:

NECA supports a reconciliation package that strengthens the federal tax code and advances a comprehensive energy strategy. High tax rates and a complex tax code hamper NECA contractors' competitive standing and hinder their economic growth.

- Make the Tax Cuts and Jobs Act Permanent
- Cosponsor H.R.703/S.213 - the Main Street Tax Certainty Act
- Cosponsor H.R.1301/S.587 - the Death Tax Repeal Act
- Cosponsor S.796 - the Book Minimum Tax Repeal Act

Enact Policies for Energy Independence:

NECA supports a comprehensive energy policy that increases all avenues of domestic production.

- Support comprehensive permitting reform that streamlines the permitting process
- Oppose efforts to repeal pro-energy production, transmission, and affordability provisions enacted under the Inflation Reduction Act

Support Legislation to Invest in our Nation's Infrastructure:

NECA supports any legislation that promotes building and maintaining our nation's critical infrastructure. This includes expanding access to resources and removing regulatory burdens to rapidly deploy needed innovations across the country.

- Support the upcoming Surface Transportation Reauthorization
- Fully fund the Infrastructure Investment and Jobs Act and the CHIPS and Science Act
- Strengthen Our Energy Grid Infrastructure
- Increase investment in Clean Water and Wastewater Projects, AI and Data Centers, broadband, EV and 5G infrastructure.

The National Electrical Contractors Association (NECA) is the voice of the \$255 billion electrical construction industry that brings power, light, and communication technology to buildings and communities across North America. NECA's national office and 118 local chapters advance the industry through advocacy, education, research, and standards development.
