POLICY 19

Safety Programs and Safe Workers

NECA believes that safety is an integral part of achieving excellence in the electrical contracting business by maintaining the highest productivity, quality, and safety standards in a proactive, practical, and cost effective approach to manage organizational loss control. NECA members demonstrate safety professionalism and responsibility through every aspect of work and services they provide including designing, planning, construction, service work, and implementing operations with a minimum of disruption to customers. NECA's commitment to jobsite safety is reinforced by placing special emphasis in quality safety training programs that integrate safety into project pre-planning and project management.

NECA, historically, has supported and continues to support the highest safety standards in construction for the benefit of its members, the industry and the consuming public. NECA actively advocates maintaining the safest and most productive workplace possible. NECA members appreciate the benefits of a workplace free from injuries, the advantage of a productive work force, and the responsibility of offering a safe working environment. To that end, NECA believes that to achieve zero injuries in the workplace, contractors must strive for zero energized work environments as the normal and best practice, whenever achievable.

NECA members understand jobsite safety is an important responsibility shared between employers and employees and affirms that implementing safe work practices is not optional. The association believes that a trained and qualified workforce has responsibility to recognize and avoid workplace hazards and, where necessary, employers provide the required personal protective equipment for workers exposed to workplace hazards.

POLICY 19

Safety Programs and Safe Workers

NECA believes that safety is an integral part of achieving excellence in the electrical contracting business by maintaining the highest ~~productivity, quality, and safety~~ standards of safety, quality and productivity, in a proactive, practical, and cost effective approach to manage organizational loss control. NECA members demonstrate safety professionalism and responsibility through every aspect of work and services ~~they provide including designing, planning, construction, service work, and implementing operations~~ with a minimum of disruption to customers. NECA's commitment to jobsite safety is reinforced by placing special emphasis in quality safety training programs and policies that integrate safety into project pre-planning and project management.

~~NECA, historically, has supported and continues to support~~ NECA's policy is to support the highest safety standards in construction for the benefit of its members, the industry and the consuming public. NECA actively advocates maintaining the safest and most productive workplace possible through compliance with all OSHA and other safety standards directly related to the electrical industry. NECA members appreciate the benefits of a workplace free from injuries, the advantage of a productive work force, and the responsibility of offering a safe working environment. To that end, NECA believes that to achieve zero injuries in the workplace, contractors must strive for zero energized work environments as the normal and best practice, whenever achievable.

NECA members understand jobsite safety is an important responsibility shared between employers and employees and affirms that implementing safe work practices is not optional. The association believes that a trained and qualified workforce has responsibility to recognize and avoid workplace hazards and, where necessary, employers provide the required personal protective equipment for workers exposed to workplace hazards.

NECA remains active in government relations and rulemaking processes related to worker safety. The association actively participates in electrical safety standard development, such as NFPA 70 *the National Electrical Code*, and NFPA 70E *Standard for Electrical Safety in the Workplace* and other safety legislation that affects the industry. NECA is committed to supporting collaborative effective efforts in industry alliances and partnerships sharing common safety objectives.

The goal of NECA members is to maintain a safe and healthy workplace for all employees and to foster efficient operations, thereby offering the best possible product and services to the customer. Effective safety-related work practices and principles must be integrated into the planning and installation of electrical work as well as into design.

NECA members recognize that implementing effective safety programs and safe work practices is often challenging. NECA members are dedicated to addressing these challenges while establishing and maintaining safety in the workplace. Safety Excellence results from safe work practices that continuously strive for Zero Injuries. NECA's commitment to safety excellence and safe work environments remains active, focused and constant.
