NECA’s political action program collects individual personal contributions from NECA members and distributes those funds to worthwhile candidates for the U.S. Senate and the U.S. House of Representatives. This work is carried out through the National Electrical Contractors Association Political Action Committee (NECAPAC), chartered as a “separate segregated” fund under NECA’s direction.

A Letter from 2015–2016
PLC Chairman Alex Owen

Thank you for the opportunity to allow me to serve as the Political Leadership Council Chair. I enjoyed the opportunity to represent NECA on a national level and to advocate for our industry these past two years.

The goal of NECAPAC has been to ensure that the Members of Congress chosen on election day are those who understand NECA’s priority issues and will fight for our industry. Our PAC is working every day to build a better Congress for our industry. The results of this election cycle have shown that our efforts were successful. We are proud to say that 92 percent of the candidates NECAPAC supported won their election and will be a part of the 115th Congress.

We are very proud that NECAPAC remains the number one specialty construction PAC in the country. This title is a reflection of our members’ dedication and genuine interest in NECA’s advocacy efforts. NECAPAC had another successful election cycle, raising $1,794,667 in 2015 and 2016. This success can be attributed to the nearly 3,300 NECA contractors who recognize the importance of supporting NECA’s political action efforts. The success of NECAPAC is funded with our members’ contributions, but the energy is runs on is their overwhelming participation.

Just as our PAC continues to grow, so do our grassroots efforts. NECA members held 96 meetings with Members of Congress in their home districts in 2016, sent 500 letters, and 150 NECA members came to Washington, DC to discuss NECA’s priority issues with their Members of Congress. The site visits help build and expand on our relationships with Members of Congress. Whether you contribute to NECAPAC or not, the opportunity to meet with your legislator is a business opportunity that is too important to miss. It gives us the chance to discuss NECA’s policy positions and show Members of Congress first-hand how these issues impact the electrical construction industry.

It has been a great privilege to serve as the Political Leadership Council Chair and I am honored to hand over the Chairmanship to Mark Mazur of MJM Electric. I am certain that he will continue the Council’s success and expand our efforts even further.

Sincerely,

Alex Owen
2015-2016 PLC Chair

Did you know?
NECAPAC is the largest Specialty Construction PAC in the country.
I have now lived in the greater Washington, DC area for over 25 years. Every so often as I walk across the Capitol grounds, shuffling in between meetings, I still catch myself briefly stopping and staring at the Capitol building in awe. After all these years, I have not fallen into the trap of getting too jaded about our political process or slow pace of the legislative process.

Optimism is an important ingredient in ensuring progress. That said, we at NECA maintain a robust schedule, vigorously advocating for your legislative and regulatory priorities. Our advocacy efforts and presence on Capitol Hill will continue to grow in 2017 and beyond, ensuring that you have a strong voice on legislation advanced in Congress and on the issues that matter most to you.

I am pleased to report that we have made great progress during the 114th Congress. NECA was highly engaged in numerous key battles over the past two years, including:

- Development of comprehensive energy policy;
- The first long-term transportation infrastructure measure in ten years;
- Legislation investing in our water and waterways infrastructure;
- Passage of multiemployer pension reform;
- Delay in the implementation of the 40 percent Cadillac Tax; and,
- Permanent extension of numerous major federal tax incentives.

NECAPAC had another great election cycle, bringing in $1,794,667 from 3,292 contributors. We could not have this success without the financial backing of your generous contributions and your dedication to our advocacy efforts. We invested your contributions wisely, with an unprecedented return on that investment with a 92 percent win record for the 2016 election cycle.

As I continue to walk back and forth across the Capitol complex and briefly stand in awe at the Capitol dome, I hope you will have the chance to review this report and get a sense of the far reach the National Electrical Contractors Association has throughout Washington, DC. Thank you for all your support and we look forward to building an even better, more electrical construction-friendly Congress.

Sincerely,

Marco Giamberardino
Executive Director, Government Affairs

“The decisions made in Washington today will impact us for years to come. Getting involved and supporting NECAPAC early in your career is an investment that will yield returns today and into the future. As a supporting member of NECAPAC, you have influence on what happens in Washington and how you and your business will be affected today in the coming years.”

—Jacob Davie, Hooper Corporation
NECAPAC at a Glance

Criteria for Candidate Support

- NECA Chapter or member request
- NECA staff recommendation
- Does candidate support NECA’s priority issues?
  - NECA Vote Scorecard
  - NECA Candidate Questionnaire
- Key Congressional Committee assignments
- Leadership Position in Congress
- Responsive to NECA’s meeting requests
- Avoid giving to multiple candidates in the same race

Receipts and Disbursements for 2015 and 2016

NECAPAC Progress Over the Years

Electoral Summary

House
- Involved in 140 House races
- 132 Wins
- 8 Losses
- 94% Win Record

Senate
- Involved in 17 Senate Races
- 13 Wins
- 4 Losses
- 76% Win Record

Overall NECAPAC Win Record 92%

Did you know?
NECAPAC increased its Candidate Win Record by 3% this cycle, a new record!
NECA’s Top Legislative Issues for the 115th Congress

The following items are NECA’s priority issues that must be addressed during the 114th Congress:

**Invest in Our Nation’s Infrastructure**

A robust investment in our nation’s infrastructure is essential to keeping NECA’s electrical contractors in business, their employees working, and ensuring a sound economy.

- Find a Sustainable Solution to Fix the Highway Trust Fund
- Modernize our Airports and Air Traffic Infrastructure
- Expand Investment in Federal Facilities
- Authorize and Fully Fund the Clean Water, and Safe Drinking Water State Revolving Loan Fund Programs
- Support Long-Term Investment in Waterways Infrastructure
- Build and Upgrade Transmission Line Infrastructure
- Upgrade and Modernize Pipeline Infrastructure

**Modernize Our Nation’s Energy Policy**

The electrical construction industry specifies, installs and services products related to energy production and efficiency. Deployment of energy efficiency technology and infrastructure has been slow due to marketplace, government and economic barriers. NECA supports a comprehensive energy policy that increases all avenues of domestic production including domestic oil and natural gas exploration as well as clean and renewable energy sources.

- Streamline the Approval Process for Pipeline Infrastructure

**Enact Comprehensive Tax Reform**

High tax rates and a complex tax code hampers our nation’s competitive standing and hinders our economic growth. The time and money NECA contractors spend to comply with our existing and complex tax code could be—and should be—spent on growing their businesses and creating jobs. That is why comprehensive tax reform must be tackled as soon as possible.

- Restore Tax Rate Parity for All Businesses
- Establish Reasonable Top Rates
- Eliminate the Double Tax on Corporate Income
- Eliminate the Estate Tax
- Repeal the Alternative Minimum Tax
- Address Outstanding Tax Extender Items

**Repair and Reform the Affordable Care Act**

Through the Taft-Hartley multiemployer plan system, NECA provides excellent health care benefits to electrical workers because they recognize the value of investing in their workforce and that providing excellent health care benefits is a sound investment and good for business. The Affordable Care Act (ACA) may have been a first step towards reforming our complex and costly system,

“NECAPAC is an important and necessary part of NECA membership. We have all seen legislation introduced or passed that is damaging to our businesses. Without the strength and involvement of our Government Affairs staff and the power of our recognized NECAPAC, we would be ineffectual on Capitol Hill. Member and Chapter involvement in the Legislative Conference, grassroots letter writing, and at home meetings with our Congressional delegation have helped to bring our issues with real-life examples to the forefront of our legislator’s minds.”

—David Manderson, Minneapolis Chapter NECA
but there are numerous provisions of the ACA that have caused unnecessary disruption for NECA contractors. Meaningful healthcare reform should reduce health care costs, increase choices and access, and improve quality and efficiency.

- Repeal the 40 Percent Excise Tax on “Cadillac” Plans
- Recognize the Unique Nature of Taft-Hartley Plans

**Protect America’s Workforce**

NECA contractors know that their employees are a key to their success. That is why our electrical contractors invest in the nation’s most comprehensive training and apprenticeship programs, compensate our skilled workforce accordingly, and provide quality health care and retirement benefits. The result is the most-skilled and most-productive electricians in the nation.

- Authorize Innovative Composite Plans to Reform the Multiemployer Pension System
- Oppose Efforts to Repeal, Suspend or Modify the Davis-Bacon Act
- Oppose Limitations on the Use of Project Labor Agreements
- Prevent the Misclassification of Employees as Independent Contractors
- Encourage Career Development in the Electrical Construction Industry Through Existing Private Sector Apprenticeship Training Programs

**Contracting Reform**

Small businesses are the foundation of our economy. In fact, the typical electrical contracting firm size is classified as a small business, with 80 percent having less than ten employees. NECA supports legislation that would help increase opportunities for small businesses, prevent government waste and fraud, and provide a framework for growth in the construction industry by promoting efficient federal government procurement through simple, no-cost solutions.

- Prohibit Utilization of Reverse Auctions for the Procurement of Construction Contracts
- Reform the Administration of Change Orders
- Ensure Payment Protections for Construction Subcontractors and Suppliers Performing under Public-Private Partnerships on Federal Construction
- Establish a Statute of Repose for Federal Construction Projects
- Eliminate future indexing of Federal Miller Act
- Improve the Design-Build Construction Process
- Support Bid Listing to Ensure Transparency in Federal Construction

States in bold have contributed less to the PAC than the PAC has spent in their state.

*New England states are affiliated with the Boston Chapter.
**Delaware is affiliated with the Penn-Del-Jersey Chapter.
***Virginia, North Carolina, and South Carolina are part of the Atlantic Coast Chapter.

“NECA contractors receive a tremendous benefit through NECAPAC. Our PAC is recognized in Washington and is able to get the attention of our legislators, making sure that our voices are heard concerning the issues that are important to the success of our businesses. NECAPAC is also an efficient organization, guaranteeing maximum benefit for every dollar contributed. I not only encourage you to contribute today, but I urge you to become involved.”

“As business owners, we all realize the importance and the need to pay for insurance to protect our workers and our business assets, and we wouldn’t dare go without it. We should also realize the importance of a donation to NECAPAC. It is our insurance policy to protect our businesses from legislation and regulations that may hurt our industry, while giving us a stronger voice on Capitol Hill.”

Chairman’s Challenge

In 2014, we implemented a new program called the Government Affairs Chairman’s Challenge. The goal of the program was to increase NECA member involvement in grassroots and the PAC. We challenged each of the 119 NECA chapters across the United States to host a Member of Congress either at a NECA contractor’s place of business, training center, jobsite, or NECA Chapter office. The outcome was a great success, with 33 site visits in 2014, 57 visits in 2015, and 96 visits in 2016.

The site visits either created or expanded on our members’ relationships with Members of Congress. It gave our members an opportunity to discuss NECA’s policy positions and showed Members of Congress first-hand how these issues impact the electrical construction industry.

Thank you all for your participation in this program and for expanding NECA’s grassroots efforts across the country. To view a summary of each Congressional meeting, please visit www.necanet.org/chairmanchallenge.

NECAPAC’s average donation to a candidate was $6,120 in the 2015–2016 election cycle.
North Florida Chapter with Rep. John Mica (R-FL)

Long Island Chapter with Rep. Lee Zeldin (R-NY)

Dakotas Chapter with Rep. Kristi Noem (R-SD)

Minneapolis Chapter with Rep. Erik Paulsen (R-MN)

Dakotas Chapter with Sen. John Hoeven (R-ND)

Illinois Chapter with Rep. Darin LaHood (R-IL)
Did you know?
NECA members hosted 153 in-district meetings with Members of Congress in the 2015-2016 election cycle.

The National Electrical Contractors Association (NECA) is the nationally recognized voice of the electrical construction industry, comprised of over 80,000 electrical contracting firms, employing over 750,000 electrical workers and producing an annual volume of over $130 billion in electrical construction. NECA contractors nationwide are involved in specialized construction work related to the design, installation, and maintenance of electrical systems.
