

NECA Student Chapters Special Event

Speed Interviewing and Networking Event

*Sunday, October 13, 2013 • 2:30–3:15 pm
Walter E. Washington Convention Center*

WHAT is a Speed Interviewing and Networking Event? Much like the concept of speed dating, Speed Interviewing and Networking is a quick interview experience followed by the opportunity to network during a reception. This event is open to all students attending the NECA Convention for the purpose of advancing their professionalism and career preparedness by interviewing with NECA contractors.

HOW does it work? Contractors will have 5–8 minutes to talk to a pool of students about a job and skills needed. Students will rotate to a new contractor every 5–8 minutes. When it is time for the students to move to the next interviewer, a bell will sound indicating that time is up.

WHY is it an important event? You will soon enter the real world or perhaps you have already interned with some of our contractors. This event will give you a chance to not only practice interviewing skills, but also to interview for a real job or internship opportunity.

Don't miss this opportunity!

At the end, you will gain valuable feedback from contractors on the process.

As many students have found value in networking with our members, this is an opportunity to interact with them on another level.

Be ready to sell yourself and share what skills and knowledge you would bring to a company if hired!

Bring copies of your resume.

For questions about this event, please contact Wanessa Alves, Director, Student Chapter Relations
at 301-215-4532 or wa@necanet.org.
